They Say

Snakes are dangerous at times.

So are some men who grin.

A two-faced man will stab his friends.

A man who enjoys the hospitalities of his friends and then stabs them is no man.

Secretary Carlisle will appoint a colored emigrant inspector.

He will be a colored Democrat pure and simple.

The Kansas porpoise summoned the sage of Anacostia to testify to his good character.

Great Cæsar! What a falling off there will be.

The truth when told is more effective than a lie.

Good men will tell the truth.

You can always tell when a good man tells the truth.

An enemy will stab you to the heart.

A friend will defend you at any time.

It is better to tell the truth than it is to tell a lie.

Lawyer John A. Moss is a good reasoner.

He has the respect of the court and the bar.

Be a wise listener and a good observer of men and women.

Many an innocent woman is ruined by the vile tongue of libertines.

Watch the grinning man or the person that shows his teeth.

Never tell all you know.

Some men show their ignorance when they should show their wisdom

The people want the elective franchise in this city.

Editor James A. Ross will receive recognition from this administration.

Some men change their opinions when it is too late.

There seems to be a color war in this city.

Beware of the man who always has something to tell.

Thompson, of the World, will be convinced that his Kansas porpoise will be knocked out.

The Kansas porpoise is looking for character.

It is hoped that he will find it.

How can a dog find that which he never possessed.

If he is proven to be no better than a dog the BEE will make honey out of dog soup.

No Negro will be appointed chaplain of the next House.

There will probably be a Negro assistant clerk of the next House.

Will Thompson explain to the BEE why he left the Indianapolis Post-office?

Was he too free in correspondence with white female clerks?

Perhaps Mr. Thompson can be given a bit of information.

Mr. Thompson had better stay by his idol.

He will return to Kansas a wiser man.

The BEE cannot say that he will be a better man.

He was not born that way.

There will be five commissioners appointed in this city to represent the Atlanta Exposition.

Dr Parkhurst's first article to women in the *Ladies' Home Journal* has proved so popular that the entire huge edition of the February issue of the magazine was exhausted within ten days, and a second edition of 45,000 copies has been printed.

CRASHED INTO A TROLLEY CAR.

A Baltimore and Ohio Train Runs Into a Car Crossing Its Track.

Pittsburg, Feb. 18.—At 10 o'clock last night the Eastern express on the Baltimore and Ohio Railroad ran into a Second avenue traction car at the street crossing at Rankin station, killing Anna Kosak, a Slav girl, aged eighteen; crushing the arm and foot of William Johns, of City Farms, seriously injuring three other passengers, and smashing the car to pieces. The street car conductor, John McGhan, saw the express coming, and shouted to his passengers to jump out the rear door. As many as possible did so, and in this way several lives were saved.

BOY INCENDIARIES.

A Gang of Them Terrorizing Elizabeth, N. J.

Elizabeth, N. J., Feb. 19.—The police arrested Frederick King, a boy of thirteen, last night for setting fire to Cook Hall's stable and Ogden's furniture warehouse on Sunday. The boy confessed and said he started the fire to see the engines run. The boy robbed Mrs. Ogden's house some time ago. He has confederates, who are responsible for many fires, the most recent being the Post-Office on Friday night last, when $8,000 damage was done.

FATAL RAILROAD WRECK.

One Killed, Two Fatally Injured and Eighteen Hurt.

Guthrie, O. T., Feb. 18.—Through a misunderstanding of orders, the southbound Galveston express on the Atchison, Topeka and Santa Fe Railroad, heavily loaded with day excursionists, and a north-bound live stock "extra" collided while rounding a curve five miles south of Guthrie. Engineer Charles Appleby was instantly killed, two others were fatally injured and eighteen received serious wounds.

Boston Motormen's Novel Idea.

Boston, Feb. 18.—The drivers and motormen of the West End Street Railway have decided not to accept the compromise proposition of the management of the road, but to adhere to the original demand of $2.50 per day. The point of attack has been changed, however, and instead of a tie-up of the West End system there is to be a legislative fight begun, which is expected to restrict the employment of inexperienced men on the cars of the company.

$15,000 Fire in Amsterdam.

Amsterdam, Feb. 19.—A fire occurred between 11 and 12 o'clock last night in the harness shop of W. P. Clowes, on Bridge street. The building, together with the Hooker Hotel adjoining, was destroyed. The hotel was run by Horatio Claus. W. P. Clowes, in whose shop the fire occurred, had to be dragged out, nearly suffocated. The loss will amount to about $15,000.

Washed Ashore From the Elbe Wreck.

London, Feb. 18.—The body of Wilhelm Murst, a fireman on the steamship Elbe, was washed ashore at Deal yesterday. A lifebelt was fastened to it. An Elbe mail bag was found near by. Asphyxiated.

Brooklyn, N. Y., Feb. 18.—Henry Knoope, aged eighteen years, and Henry Seimis, aged twenty, residents of Hoboken, N. J., were found dead in Miller's Hotel, Williamsburg. Death was due to asphyxiation. The police are inclined to believe that the boys committed suicide.

LIEUTENANT PECK KILLED.

Bursting of a Hotchkiss Gun While Being Tested.

Sandy Hook, N. J., Feb. 20.—Fremont P. Peck, First Lieutenant of the Ordnance Corps, was almost instantly killed on the proving grounds here yesterday afternoon by the bursting of the breech of a Hotchkiss gun. The test of a 47-10-inch Hotchkiss rapid firing gun was under way, and two rounds, with fixed ammunition, had been successfully fired by Lieut. Peck. When the third round was fired the breech of the gun burst, and fragments from it struck Lieut. Peck on the face and back, causing injuries which resulted in his death in a few minutes. Sergt. John Thorp was slightly injured in the leg, but the others present, among whom were Capt. Frank Heath, the commanding officer of the proving grounds, and Major Frank H. Phipps, the President of the Ordnance Board, escaped unhurt. Many had narrow escapes from serious injury, as fragments of the breech were sent in all directions.

ACTOR GENTRY CAUGHT.

The Murderer of Madge Yorke Captured in Philadelphia.

Philadelphia, Feb. 20. — James B. Gentry, the actor who shot and killed Madge Yorke, the actress, in this city Sunday evening, was arrested by a policeman last night at Thirty-third street and Columbia avenue. He was taken to the German Hospital and is now confined in that institution.

The B. & A. transfer house adjoining was saved by great efforts of the firemen. The origin of the fire is unknown. Loss probably $10,000. Harland's stock was insured.

Rome, Feb. 20.—Signor Giolitti, who was recently summoned to appear to answer the charge of slandering Premier Crispi, returned to Italy to-day and will be examined by a magistrate in this city on February 22.

A FEARFUL WRECK.

A British Bark Goes Ashore and Her Crew is Drowned.

London, Dec. 31.—The British bark Osseo was wrecked in a gale at Holyhead yesterday morning, and with her perished her entire crew of twenty-six men. The Osseo was driven ashore back of the Holyhead breakwater. Her signals of distress were first heard by the coast guard about 4 o'clock in the morning. At that time it was pitch dark, and great waves were washing over the breakwater. In spite of the danger of being washed into the sea, the guard proceeded along the breakwater, and, having rigged up the rocket apparatus, began firing life lines in the direction of the wreck. The faint light of the rockets soon disclosed the fact that the vessel had broken in two amidships, and that the main mast had fallen, crushing the lives out of several of the crew. A few survivors could be seen clinging to each half of the vessel, and their piteous cries for help could be heard above the roar of the storm. After many failures the coast guard succeeded in firing a line over the wreck, but by that time all on board had perished. A lifeboat vainly tried again and again to approach the wreck. Not a vestige of the bark could be seen to-day, and there is no prospect of any salvage. The Osseo was a bark of 1,399 tons. She arrived at Falmouth on December 15 from Taltal, and had been ordered to Anderson. Reports of stormy weather continue to be received from all parts of Europe. Numerous small wrecks and casualties are reported in Great Britain and Ireland. Many lives were saved by lifeboats. A severe gale is blowing on the Baltic, and navigation is suspended at Copenhagen.

PARKHURST DISSATISFIED.

An Understanding Between Lexow and Supt. Byrnes.

New York, Dec. 31.—In an interview with a Tribune reporter, Dr. Parkhurst was asked: "Have you changed your mind from reading the testimony of Supt. Byrnes that there was a previous understanding between the Superintendent and the Lexow Committee?" He replied: "There is not the slightest doubt about it. In fact, I am free to say that I knew some time ago that there was an understanding between the committee and Mr. Byrnes. I am not prepared to say that Mr. Goff had any knowledge of it, but the understanding involved the manner in which Mr. Byrnes was to be treated. Just what the understanding was I decline to state, but I knew that Byrnes was not to be badly damaged. I first made up my mind that there was an understanding when I heard that Byrnes was supplying the committee with information. My sentiments in regard to Mr. Byrnes are the same now as they always have been. I have been fighting Mr. Byrnes three years, and he has been fighting us, and I am firmly of the conviction that if I care for the safety of our organization I cannot afford to become allied with the enemy in any way, shape or manner. I look upon Supt. Byrnes as a constituent part of a system that is corrupt, and for that reason I do not believe it is wise to have any dealings with him."

A Chinaman Suicides.

Watertown, N. Y., Dec. 31. — Lee Ling, a Chinese, aged eighteen, who had been a prisoner in the county jail here since November 19 on a charge of assault, committed suicide in his cell yesterday afternoon by hanging. On November 19 Ling entered a laundry, of which his consin, Charles Jim, is proprietor, and demanded $200, saying he wanted to go back to China. Jim refused to give him the money, and Ling, armed with a long knife, thereupon rushed upon him, cutting his arm and inflicting other slight wounds. Ling had been in this country only two years.

A Hermit Frozen to Death.

Wichita, Kan., Dec. 31.—Emile Lannes, a hermit for a dozen years in a canyon in Beaver County, No Man's Land, was found frozen to death in his rude hut. A crucifix was grasped tightly in one hand and a rosary in the other. He was ninety years of age and was said to be a son of one of Napoleon's marshals. The hut he lived in contained nothing but a rough table, a few cooking utensils and about fifty volumes of French religious books.

A Fire at Sing Sing.

Sing Sing, N. Y., Dec. 31.—Fire was discovered in the storehouse and laundry of Sing Sing prison yesterday morning. Although the firemen responded promptly the flames had gained considerable headway. The burned buildings are located in the northeast portion of the prison yard. The loss is estimated at $2,500, and is not insured. The cause of the fire is a mystery.

Stamped Envelopes Cheaper.

Washington, Dec. 31.—Third Assistant Postmaster-General Craige has issued a circular informing postmasters of a reduction in the prices of stamped envelopes and newspapers after January 1, 1895. WILBOR'S COMPOUND OF
PURE COD LIVER OIL
AND PHOSPHATES OF
LIME, SODA, IRON.
The truly wonderful effect produced by Dr. Alexander B. Wilbor's Compound of Pure Cod-Liver Oil and Phosphates renders it beyond doubt the most perfect preparation of its kind known to-day. Consumption, coughs, colds, asthma, debility, wasting diseases and all scrofulous humors disappear under its influence. It is almost as palatable as cream and can be taken with pleasure by delicate persons and children, who, after using it, become very fond of it. It assimilates with the food, increases the flesh and appetite, builds up the nervous system, restores energy to mind and body, creates new, rich and pure blood, in fact, rejuvenates the whole system, flesh, blood, nerve, brain. This preparation is far superior to all other preparations of cod-liver oil; it has many imitators, but no equals. The results following its use are its best recommendations. Be sure, as you value your health, and get the genuine. Manufactured only by DR. ALEXANDER B. WILBOR, Chemist, Boston, Mass.

SATURDAY, FEB. 23, 1895.

FREDERICK DOUGLASS DEAD.

The sudden death of Hon. Frederick Douglass is, no doubt, a shock to the entire country. It was just last Sabbath morning when he attended the services at the Fifteenth Street Presbyterian Church.

Apparently he was in the best of health and spirits.

As a Negro he was one of the representatives, and a man of peculiar temperament. Mr. Douglass was bold as well as vindictive. He disliked an enemy and was kind to his friends.

People would often take his vindictiveness for petty jealousy. Like other public men, he had his faults, and would often do things that would appear small in the eyes of the people.

The BEE never regarded Mr. Douglass as a leader, but a representative colored man.

That he has been of service to his race no one will deny, and a benefactor to some who have proven their ingratitude to him.

He was an eloquent speaker, and was, no doubt, one of the most distinguished Americans of the present time.

OUR LIBEL SUIT.

There is no doubt but that the libel suit instituted by C. H. J. Taylor against the editor of the BEE will be tried in Judge Cole's court next week.

It is remarkable to see the character of the agents that have been employed to induce our witnesses not to testify.

It has all been without success, however, as they believe in good government and purity in public officials. The brags that have been made by this man Taylor and his roasting methods to lead persons to believe that he is the injured innocence will all be developed at the trial.

His article in the Post, said to have been written by Fred. Douglass, whom Taylor says would testify to his good moral character, are but a few of the recent developments.

The BEE has often heard of men talking through their hats, but it has never seen it demonstrated.

No doubt Taylor's suit against the BEE will show this.

DR. FRANCIS.

This eminent physician is, no doubt, the most progressive in this city. Having been reared in this community, the people feel proud of him and the success he is making.

The recent enterprise started by him is highly indorsed by the most eminent physicians in this community.

Dr. Francis is to be congratulated, and if the people want to see a great thing let them call at his sanitarium near his office on Pennsylvania avenue, northwest.

This sanitarium will be ready in a very few weeks, and then the people will be convinced that they have a great man doing great good.

Let us have suffrage in the District.

LAWYER MOSS.

Lawyer John A. Moss, one of the progressive lawyers before the District bar, in the police court last Wednesday morning called the attention of his honor to a case that he had in which Col. W. P. Wood was interested. Just as the court opened Mr. Moss said that a man by the name of Wood had interfered with one of his clients. He is a man not a member of the bar and one who has no business in this court. Lawyer Moss wanted to know from the court what right had Colonel Wood to say to him that he would give him five dollars for defending his client when he was sent for.

Judge Kimball said that he had nothing to do with what he charged a client. All that he knew was Colonel Wood came to him and said that Lawyer Moss represents an old friend of his, and if he cannot get bond for her he would like to go on her bond himself, as he was an old friend of the family.

Lawyer Moss is one of the most active members of the District bar, and a young man who has the respect and confidence of the court. He is always earnest in defending his clients and untiring in his efforts to clear them.

OUR GOVERNMENT.

The people of this city want to control their own affairs.

They are being taxed by Congress without their consent, and regulations passed by the District Commissioners contrary to reason and inconsistent with custom.

What the people want is the elective franchise. Washington is the dumping-ground for every played-out politician.

The people who pay taxes to maintain the government are not allowed to say who shall control their affairs. What this city needs is a good government and people to fill the offices who have honor and integrity.

There was a time in this city when the honor and virtue of our school teachers stood in danger by having corrupt men on the school board of trustees.

We want honest men in office, and such men who are above suspicion.

THE ARMY CHAPLAIN.

The President will, no doubt, make up his mind to appoint a colored chaplain in the army after the adjournment of Congress. It is not likely that he will appoint some broken down and played out political jack-leg preacher. He will appoint a gentleman of high moral character.

The President will not appoint a man who is backed up by libertines and corruptionists.

There have been names presented that need to be looked at with electric lights.

If the President wants the record of some of the jack-leg ministers that have been presented to him he can be accommodated by addressing a letter to this office.

THE HOUSE CHAPLAINCY.

There are about two hundred applicants for the chaplaincy of the next House of Representatives and equally as many for the chaplaincy in the army. The colored applicants for the House chaplaincy will not be considered. It is understood that the Republicans will consider the claims of the race in another capacity. In what way no one will be able to state but the caucus that will fix up the slate of appointments.

THE ACROBATIC EDITOR.

The all-round editor of the Defender, Astwood, is still in New York, dodging the libel suit.

A man who claims to tell the truth will show his manhood by coming forward and testifying to what he has alleged in his paper. His recent attack on the Freedmen's Hospital, because he failed to receive an appointment, is an evidence of his perfidy.

It is the unanimous opinion among the people of this city that Judge Mills ought to be appointed on the bench. "It is not necessary," remarked Judge Mills some time ago, "to impose a large fine or a long sentence on a person who commits an offense.

H. C. C. Astwood, who is now in New York, and it is reported afraid to come to Washington, thinks that the News overestimated the BEE. Astwood is a West Indian, and whose record, from what Mr. Charles R. Douglass says, cannot stand the calcium light.

Those colored men who do the most talking about race pride and race organization are the persons who employ white men to attend to their business.

The Kansas porpoise said on Wednesday that he will knock the BEE out in thirty-six hours. Why he will be on the stand six days himself. We certainly cannot go to Liberia and return and go through the South and North and back again in thirty-six hours. This wind-bag must be empty.

Belle Russell, where C. H. J. Taylor resides, has manifested a great deal of interest in the witnesses for the defense. She will probably need some of them before many days. Perhaps a little reminder of August, '93, will brighten her resolution.

Perhaps Pulies can better demonstrate his Italian (?) hand by calling upon the editor of the BEE. A little more respect and consideration for his estimable wife would be more manly on his part. He will never go abroad.

Mr. M. B. McGee, editor of the Kentucky Blade, is now in the real estate business, doing well. He married one of the prettiest and most accomplished ladies in the South.

There are some great people as well as children who ought to remain in the primer. The moment some people have an idea that they know it all, that moment they butt their brains out.

The Kansas porpoise is not doing so much talking and bragging as he did when he wanted to compromise his case. He brought suit and was the first to cry out: "Hold! enough."

The Indianapolis World must be a little jealous of Lawyer Manning. If Manning had been training with any one but the Kansas porpoise he would, no doubt, have landed.

C. H. J. Taylor has promised all the discharged employees from his office that he intends to reinstate them after the trial.

One lady has made an affidavit under the promise that she will be reinstated. Hope on, hope on. When these poor deluded females are reinstated the BEE will eat cold hash instead of honey.

The gentleman in the recorder's office who was present at the conference of the porpoise should have given better advice. Two can play at that game, Henry.

The lady in the Indian Bureau had better attend to her own affairs before she is called on to explain. Honest witnesses cannot be bribed.

Col. Wm. B. Webb, ex-District Commissioner, is one of the best friends the Negro has.

He is a man who believes that a man cannot be dishonest.

The people will decide whether they want suffrage in this city.

REV.(?) C. H. J. TAYLOR.

It is said that C. H. J. Taylor has joined the Metropolitan A. M. E. Church of Washington, D. C., which recalls to mind an incident which once happened Taylor when a minister. In conference in this State, while a bishop of the A. M. E. Church was assigning the different ministers their posts, he said: "Rev. C. H. J. Taylor, your post is Quindaro, Kansas." Whereupon Taylor, thinking the place too insignificant for his importance, said in reply: "Quindaro, hell! I'll be damned if I go to Quindaro!"—*Leavenworth Herald.*

HERE AND THERE.

While a man is thinking how a thing ought to be done a woman will do it.

Always let your acts surpass your promises and talk.

We should not judge other people's faults by our own.

The Negro, in spite of all that might be said of him, is making progress. His mark will be made at Atlanta Exposition next fall.

Don't expect your husband to remain your sweetheart and pay you the hundred little attentions that make married life a sunshine, except you look your best and wear your sweetest smile when he returns from business.

THE INCOME TAX.

Injunction Restraining Its Collection Refused.

Washington, Feb. 18.—Chief Justice Alvey has handed down an opinion in the Court of Appeals of the District concurring in the decision of Justice Hagner, in relation to a petition for an injunction asked for by John G. Moore, of New York, to restrain Joseph S. Miller, Commissioner of Internal Revenue, from any collection of the income tax. Justice Hagner refused to grant the petition a short time ago in Equity Court No. 2, and an appeal was at once taken to the higher court. The attorneys for the plaintiff have also filed a petition for an appeal to the Supreme Court of the United States, which has been allowed. Chief Justice Alvey declares that there appears to be no good ground or cause shown for an injunction to restrain the Commissioner of Internal Revenue from proceeding with the work of his bureau in regard to the assessments and collections of the income tax.

Southington, Conn., Feb. 18.—Chas. Then the assailant started on a run down the street, firing a fourth shot as he went. All four bullets took effect.

Reorganizing the Shoe and Leather Bank.

New York, Feb. 18.—A reorganization of the National Shoe and Leather Bank took place Friday as a consequence of the loss sustained by the theft of $354,000 by Samuel C. Seely, which wiped out the bank's surplus and impaired its capital. An assessment of 25 per cent. on the stock was levied, and a new surplus was created and all doubtful assets thrown out. The bank is reported in excellent condition and has deposits of about $4,000,000.

It is not known whether they have succeeded.

Russell Sage's Nest Egg.

New York, Feb. 18.—Russell Sage took a hand Friday in determining the gold puzzle. It was of the practical sort. Mr. Sage is always supposed to have his weather eye open.

ELECTION OF OFFICERS.

At Mt. Bethel Baptist Church on Wilson street the following Sunday school officers have been elected and installed for the ensuing year:

George A. Cartter, superintendent; Jefferson Weeden, assistant superintendent; Miss Elsie Washington, treasurer; Miss Bertha Snowden, secretary; Miss Lucinda Strives, assistant secretary; Mr. Berney Givens, chorister; Mr. Isaiah Page, assistant chorister; Miss Ella Grice, organist; Mr. Wilton Green, librarian; Mr. Samuel Brown, assistant librarian; Mr. John Page, usher, and Mr. Isaiah Holmes, doorkeeper.

Mlle. G. A. Finnie, the great hair culturist, can be found at 1107½ I street, northwest.

A large sum was realized at the Nineteenth Street Baptist Church last Sunday, it being an occasion of grand rally.

The grand opening at the Presbyterian Church last Sunday was very interesting. The church has been remodeled and its interior compares favorably with any church in this city.

HINTS.

If the devil has joined church.

If the pastor of the Metropolitan church knows anything about the late Miss Garrett.

Is the story true that she was introduced to the porpoise by the pastor?

If Astwood is afraid to come to Washington.

Will the next administration appoint a colored judge to one of the police court benches?

If the libel suit is so occupying the time of the Kansas porpoise that caused him to issue the recent order.

He declares that he will knock the editor out.

Pompey said the same thing about Cæsar.

The BEE will be a daily in fact.

If a man who marries two women and deserts both, is not an enemy to the race who is?

SCISSORS.

From the Suburban Enterprise.

The colored man can of himself better his condition morally, intellectually, and materially. But when he seeks to breathe more of the pure air of freedom; to decorate himself more gorgeously in the garments of manhood; to exercise more freely the privileges of citizenship; to place his wife, sisters, and daughters higher upon the plane of womanhood and morality, and to make the sweet relations of home more sacred, he has reached that height in his aspirations whereat he is compelled to seek the strong arms of liberal-minded white men to stay his balance.

From the Baptist Banner.

No other race is going to stoop down and catch the Negro by the hair of the head and drag him into prominence. Therefore if the Negro would measure arms and ever compete with the other great races of the world, he must understand that he has got to do the work himself.

MODES IN SKIRTS.

For street wear there is a marked and general preference for skirts of moderate fullness, flaring well at the bottom and fitted trimly around the waist. The very full skirts are so unmanageable and so great a burden to carry, that sensible women—and among these are numbered many very smart ones in matters of dress—will have none of them for walking. None but extremists, who adopt every latest conceit, will wear at any time the enormously full skirt which surrounds the figure with folds and ripples; for no matter how elegant the fabric or how graceful the woman she loses all dignity and ease of motion with such a load of folds flopping around her knees. For evening gowns, skirts of eight and nine yards in circumference cannot only be tolerated but even admired when the fullness is confined to the sides and back; and some women wear them with extreme *chic*.

Skirts are fastened both over and under the corsage, according to convenience and preference; if over, the skirt-band is often covered with folds of silk, velvet, or ribbon, with rosettes or bows in front, on the sides, or in the back. If the corsage fastens outside, hooks should be placed on the inside belt to fasten it to the skirt. This simple arrangement prevents all slipping. For wool gowns, if a stiff lining is preferred, moreen is commended; for if the wrong side be placed next the goods, the mohair surface looks very well for the lining, and thus dispenses with the weight and inconvenience of two linings.—*From "Review of Fashions" in Demorest's Magazine for March.*

Exposition Notes.

Mr. E. W. McConnell has secured from the Cotton States and International Exposition Company a concession for a reproduction of the burning volcano of Kilauea, the largest active volcano in the world.

Mr. J. T. Porteus, who has the concession for a Mexican village, was a visitor at the Cotton States and International Exposition headquarters the past week. He came up from Mexico with Mr. Charles H. Redding, the Exposition Commissioner to that country and Central America.

President Collier of the Cotton States International Exposition has received an application for a concession for an Esquimaux village. A similar application has been received from parties who wish to reproduce a Dahomey village.

The New York papers give a glowing account of the work of Miss Ella Powell, who represents the Woman's Department of the Cotton States and International Exposition in New York.

The Valentine Edition of the *Atlanta Journal*, edited and managed by the women of the Cotton States and International Exposition, was one of the finest ever issued from the press of that paper.

Great interest in the Cotton States and International Exposition has been aroused by an elaborate article in the *Textile Mercury*, an organ of trade in the Manchester region.

The United States Consul at Haida, Austria, writes that immense quantities of cutlery and ceramic ware are exported from that region to the United States, and that handsome exhibits are likely to be made at the Cotton States and International Exposition.

The Commissioners for the colored exhibit from Florida have issued an address that will attract attention everywhere, because of its tone of high intelligence.

Lady Aberdeen tried a novel solution of the ever-vexing servant-girl problem in her homes in Scotland and Canada, and in the April number of the *Ladies' Home Journal* she will, in an article, explain the method she adopted.

HOSPITAL NOTES.

The surgical clinic at Freedmen's Hospital, discontinued some time ago, will be resumed Sunday next, and will be held every Sunday at 2 p. m.

The severe weather manifested its effect at Freedmen's Hospital, where many cases of exposure were brought for treatment.

GOOD ADVICE.

Every patriotic citizen should give his personal effort and influence to increase the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST, published by the American Protective Tariff League? One of its correspondents says: "No true American can get along without it. I consider it the greatest and truest political teacher in the United States."

For families, hotels, public buildings, farms, mills, and mines, helps and places furnished in 10 days or deposits refunded.

A LIBERAL ORGAN OFFER.

That there has been a revolution in the manufacture of Organs and Pianos is evinced by the current offer of Cornish & Co., the well known manufacturers of Washington, N. J. For the next 60 days they offer to sell an organ for $42.50, which a short time ago would have been considered a desirable bargain at $75.00. With this they offer terms of credit that are sure to meet with the approval of every fair-minded person. Cornish & Co. are the largest makers of Pianos and Organs in the world selling direct from the factory to the home. Since the conception of this great business, nearly thirty years ago, they have been fighting the method of selling instruments through agents and dealers, their plan being to give the enormous profits usually retained by the tradesman to the buyer. Their efforts to place first class instruments within the reach of all, at manufacturer's prices and the most liberal terms, deserves the highest commendation. Every one who is contemplating the purchase of an Organ or Piano, should get the catalogue issued by this firm. It illustrates and describes all the latest and best designs of Organs and Pianos with prices and special offers that are sure to prove profitable. They generally offer to send to it free to all who write and mention the BEE.

Wells's life was insured for $35,000, $31,000 being carried by the Mutual Life of New York and the balance in the Toronto Mutual Accident Association. The policies were payable to Wells's sister Martha, who, at the time, was engaged to marry Hyams. The policies had been issued only two months before Wells's death. The New York Mutual Life investigated the case, but found no evidence of foul play, and the money was paid to Miss Wells. Last May she was married to Harry Hyams and they shortly afterwards removed to Montreal, returning to Toronto two weeks ago and again taking up their residence with Dallas Hyams.

THE CITY OF ST. AUGUSTINE.

She Has a Lumber Cargo and Was Seen Making Slow Headway to Port.

Savannah, Feb. 13.—The steamship City of St. Augustine, which has been reported overdue at New York, was sighted on February 5 off Wilmington, N. C., by the schooner Ida Lawrence, which arrived at this port on Thursday. She was steering northeast by north against strong northerly winds, and was making poor headway. Warren Ray, the New York agent of the City of St. Augustine, is inclined to think that the steamship, which is lumber-laden, may have put into one of the North Carolina inlets. Being a wooden vessel with an unsinkable cargo, it is likely that she is afloat, although she may have broken down or run out of coal and become unmanageable.

Time for Payments for This Year Extended.

Washington, Feb. 13. — The House joint resolution extending for this year the time for making returns for the income tax was reported to the Senate with amendments providing that in computing the income from real estate, expenses of repairs and fire insurance are to be deducted; that in computing income from dividends there shall be deducted such sums as are received from corporations that pay 2 per cent. on their net profits, and that no taxpayer shall be required to answer interrogatories except such as are specifically provided in the act.

A Young School Teacher Killed.

Paterson, N. J., Feb. 13.—Miss Lizzie Laird, twenty-three years old, a school teacher of Lakeview, a suburb of this city, was killed late yesterday afternoon by an Erie train while returning from school. She was accompanied by Miss Hattie Amiraux and Miss Annie Atkinson, also school teachers. The young women were struggling up a snowbank near the east-bound track. Just as Miss Laird got to the top of the bank a freight train, bound east, came along. The pilot of the locomotive struck her on the head, hurling her against her companions.

Perhaps Thirty Men Were Drowned.

Philadelphia, Feb. 13.—It is believed here that at least thirty men were drowned or frozen to death through the collision during last week's storm of the two unknown schooners off Five Fathom Bank Lightship. These sunken schooners were reported by the steamer Algonquin, which arrived at New York Monday from Jacksonville. The Algonquin passed near the wrecks and reports them sunk with all sails set. This would indicate that the vessels had sunk very quickly after having collided.

Danger of Moving Buildings on Ice.

Norwich, Conn., Feb. 13. — T. Le Count's summer cottage, which was being moved across Gardner's Lake on the ice, was left with its contents upon the ice during the night, and in the morning it was found on the bottom of the lake with the roof above the ice. It is thought the ice is thick enough to hold workmen while they raise the building for a new start.

Wholesale Jail Delivery.

Huntington, W. Va., Feb. 13.—Seventeen prisoners escaped from the Catlettsburg (Ky.) jail last night by a tunnel that they had dug under the walls. Two of them are charged with murder. Three were recaptured later. The surrounding country has been warned to look out for the others.
